CERTIFIED KANBAN TRAINING

ENTERPRISE TRANSFORMATION MANAGER

A seven half-day course from Kanban University

SEVEN HALF-DAY COURSE

Lead change that lasts.

Guide humane, evolutionary transformation that sticks, with the Kanban Maturity Model and proven Kanban University tools.

Enterprise Transformation Manager is an extended online course for transformation leaders, consultants, and internal change agents working at enterprise level. Building on the Delivery Manager or Demand Manager credential, it pairs a maturity view of the organisation with the coaching skills needed to move it forward, one evolutionary step at a time.

AT A GLANCE

DURATION
7 half-day sessions

Online

PREREQUISITES
Delivery or Demand Manager

Is Enterprise Transformation Manager the right course for me?

If you lead or support change that has to land across many teams, services, and leadership levels – this course is built for you.

You guide organisational change.

- You are responsible for initiatives that have to land across teams, services, and leadership levels.

You weigh evidence before change.

- You want to assess where the organisation stands and where it is ready to go next.

You coach people through change.

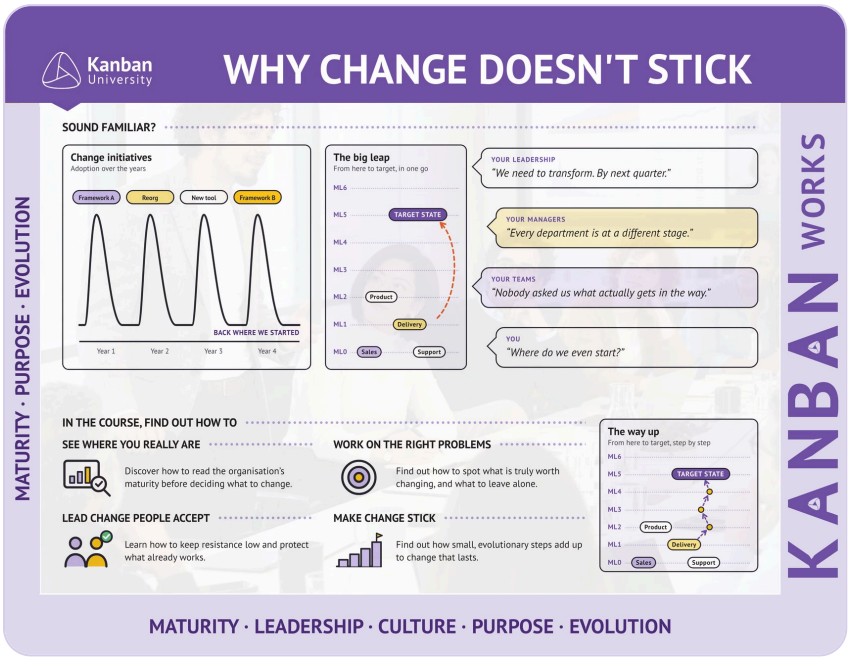

- You help leaders evolve with minimal resistance, without losing what already works.

ENTERPRISE TRANSFORMATION MANAGER

APPRAISE, PLAN AND EVOLVE

Practical tools to guide organisational change one evolutionary step at a time, with the Kanban Maturity Model.

Learn how to make change stick.

Completion and credential.

Attend and actively participate to receive your certificate of completion and earn the Enterprise Transformation Manager credential from Kanban University, an internationally recognised, advanced-level credential.

Certificate

Credential

- Take the step
- Reach the next level

Your outcomes from the Enterprise Transformation Manager course.

01 Assess where you stand
Use the KMM Appraisal Tool to see the organisation's current maturity and its realistic next step.

02 Work on the right problems
Apply STATIK and systems thinking to find what is actually worth changing.

03 Lead change people accept
Understand the human dynamics of change, run purpose workshops, and keep resistance low.

04 Advise leadership with confidence
Help leaders shape a culture that sustains change, aligned with purpose and business goals.
