CERTIFIED KANBAN TRAINING

ENTERPRISE SCALE KANBAN

A 16-hour online course from Kanban University

16-HOUR ONLINE COURSE

Coordinate a connected enterprise.

Explore leadership, culture, organisational maturity, and the core practices needed to manage a network of interconnected Kanban systems at scale.

Enterprise Scale Kanban is a 16-hour online course for managers, change professionals, and agile-coaching leaders working with large-scale Kanban deployments. You'll learn how to help a large organisation work better together as it grows, without adding bureaucracy or slowing people down.

PREREQUISITES
KMP / Delivery or Demand Manager

Is Enterprise Scale Kanban the right course for me?

If your work depends on many connected teams and services – not just one board – this course is built for you.

You work beyond one team.

- You need to coordinate decisions across connected services, products, or parts of an organisation.

Scale needs more context.

- You are looking for a practical way to relate local work to a broader system of value delivery.

You lead consequential change.

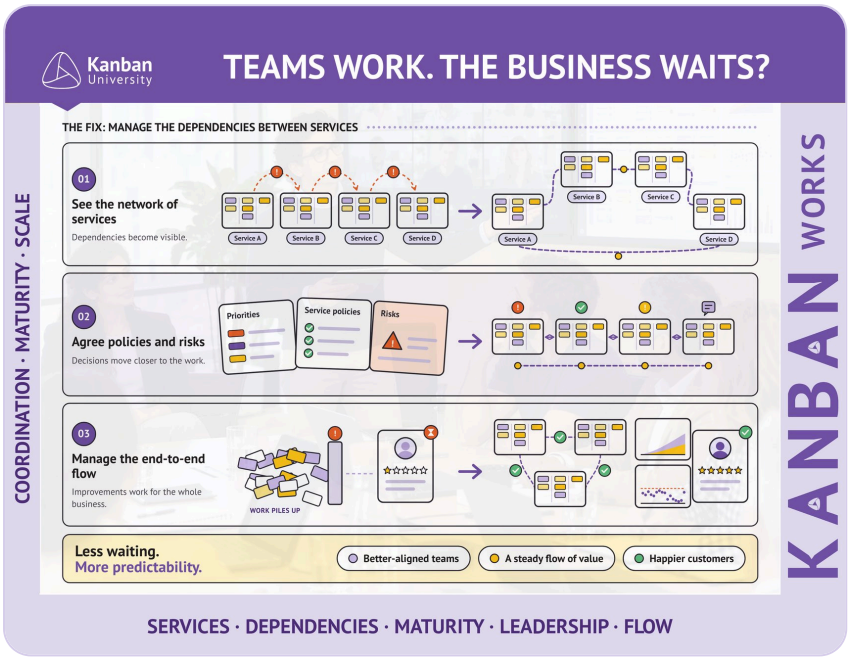

- You support leaders, managers, or specialist roles where better system-level decisions matter.

ENTERPRISE SCALE KANBAN

MAP, COORDINATE AND SCALE

Practical methods to manage a network of connected services and grow Kanban across the enterprise.

See how work flows across connected teams.

Completion and credential.

Attend and actively participate to receive your Enterprise Scale Kanban certificate of completion and earn the Enterprise Delivery Manager credential from Kanban University.

Certificate

Credential
